

Calendar and appointment management

Step-by-step guide

Purpose

Create, edit, reschedule and cancel appointments while preventing conflicts and protecting the customer experience.

Related workspace

/dashboard/calendar

Recommended workflow

- 1 Open the related workspace and confirm that you are working inside the correct business.
- 2 Review existing records and settings before creating or changing information.
- 3 Complete the required fields carefully and use the checklist below as a final review.
- 4 Save the change and confirm the result appears correctly in the workspace and customer experience.
- 5 Use Velliqo AI for guidance when useful, but review every confirmation before a protected action is executed.

Owner checklist

✓	Confirm: customer
✓	Confirm: service
✓	Confirm: professional
✓	Confirm: date and time

Safety and control

Use only accurate business information. Important actions remain under owner control. Never share passwords, secret keys or sensitive payment information in notes or AI messages.
