📍 Akakiou 14 Deneia

Actual VelliQo application example. Layout may adapt to screen size and selected industry.

Exact workflow

- 4** Review and confirm
Enter only necessary contact information, consent preferences and useful service notes.
Avoid sensitive data that is not required.

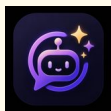

- 5** Verify the result
Open the customer profile and confirm upcoming appointments, history, value and notes belong to the correct person.

Final owner checklist

✓	Open Customers, search for a profile or select Add customer.
✓	Enter only necessary contact information, consent preferences and useful service notes. Avoid sensitive data that is not required.
✓	Open the customer profile and confirm upcoming appointments, history, value and notes belong to the correct person.

If the result is not correct

Do not repeat the action blindly. Re-open the record, confirm the selected business, date, service and professional, and use Velliqo AI or the Contact page with a screenshot of the issue.

Safety and data protection

Use accurate business data. Never place passwords, secret keys, full payment card details or unnecessary sensitive personal information in notes, forms or AI messages.
