

VELLIQO OWNER COURSE

Velliqo AI text and voice assistant

Professional step-by-step guide

Ask useful questions, use voice safely and review confirmations before the assistant performs protected actions.

Workspace route

/dashboard/ai?mode=assistant

What you will complete

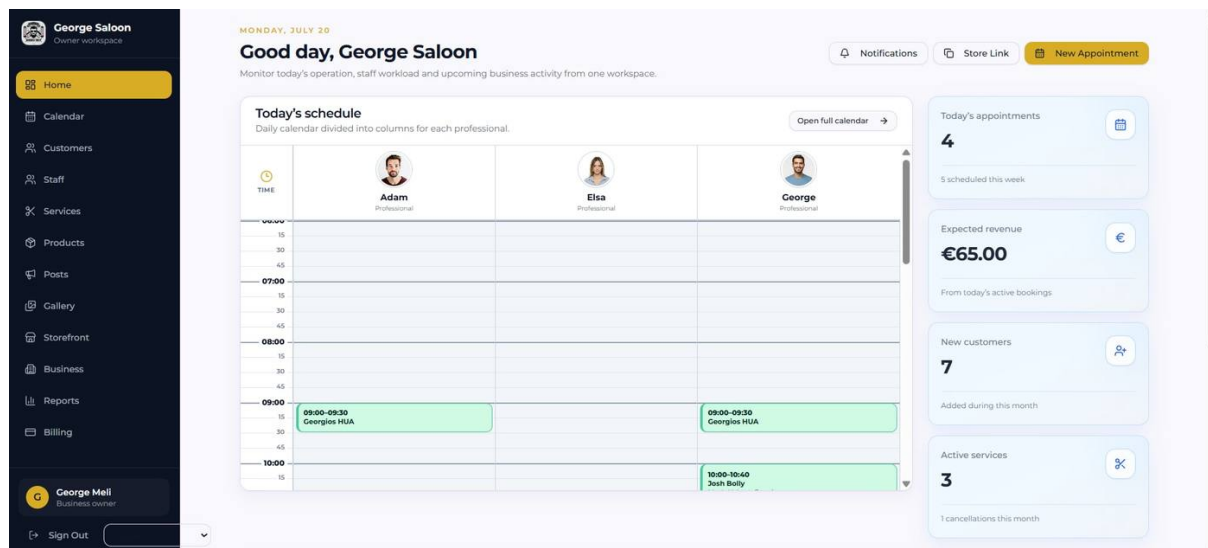

- Open Velliqo AI from the highlighted owner navigation button and choose text or microphone input.
- Ask a specific business question with a date, customer, service or goal when relevant. Do not include passwords, payment secrets or unnecessary sensitive data.
- Read the evidence and action summary. For any protected action, inspect the confirmation pop-up, change details if needed and confirm only when correct.

Actual Velliqo application example. Layout may adapt to screen size and selected industry.

Exact workflow

- 1 Open the correct workspace
Open Velliqo AI from the highlighted owner navigation button and choose text or microphone input.
- 2 Start the action
Open Velliqo AI from the highlighted owner navigation button and choose text or microphone input.
- 3 Complete the required information
Ask a specific business question with a date, customer, service or goal when relevant. Do not include passwords, payment secrets or unnecessary sensitive data.

Actual Velliqo application example. Layout may adapt to screen size and selected industry.

Exact workflow

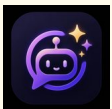

- 4** Review and confirm
Ask a specific business question with a date, customer, service or goal when relevant. Do not include passwords, payment secrets or unnecessary sensitive data.
- 5** Verify the result
Read the evidence and action summary. For any protected action, inspect the confirmation pop-up, change details if needed and confirm only when correct.

Final owner checklist

✓	Open Velliqo AI from the highlighted owner navigation button and choose text or microphone input.
✓	Ask a specific business question with a date, customer, service or goal when relevant. Do not include passwords, payment secrets or unnecessary sensitive data.
✓	Read the evidence and action summary. For any protected action, inspect the confirmation pop-up, change details if needed and confirm only when correct.

If the result is not correct

Do not repeat the action blindly. Re-open the record, confirm the selected business, date, service and professional, and use Velliqo AI or the Contact page with a screenshot of the issue.

Safety and data protection

Use accurate business data. Never place passwords, secret keys, full payment card details or unnecessary sensitive personal information in notes, forms or AI messages.
