

VELLIQO OWNER COURSE

Marketing, posts and gallery

Professional step-by-step guide

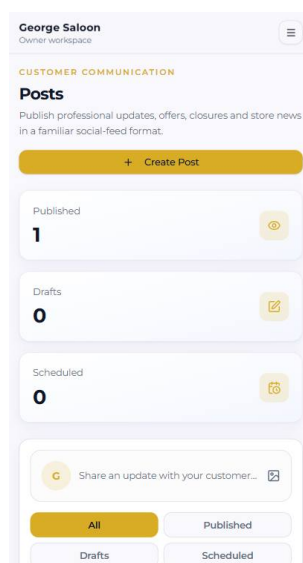

Create reviewable campaigns, publish updates and maintain a professional public content experience.

Workspace route

/dashboard/marketing

What you will complete

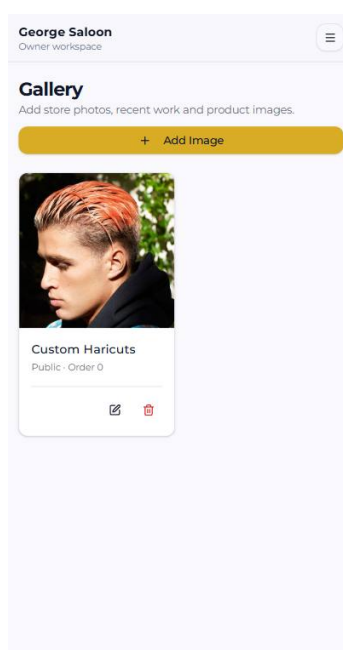

- Open Marketing for campaigns, Posts for announcements and Gallery for approved images.
- Choose the objective, audience, channel, message and schedule. For posts and gallery content confirm visibility, order and image rights.
- Review the audience count and content preview before confirmation. Check delivery history and public storefront after publishing.

Actual Velliqo application example. Layout may adapt to screen size and selected industry.

4

Review and confirm

Choose the objective, audience, channel, message and schedule. For posts and gallery content confirm visibility, order and image rights.

5

Verify the result

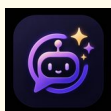

Review the audience count and content preview before confirmation. Check delivery history and public storefront after publishing.

Final owner checklist

✓	Open Marketing for campaigns, Posts for announcements and Gallery for approved images.
✓	Choose the objective, audience, channel, message and schedule. For posts and gallery content confirm visibility, order and image rights.
✓	Review the audience count and content preview before confirmation. Check delivery history and public storefront after publishing.

If the result is not correct

Do not repeat the action blindly. Re-open the record, confirm the selected business, date, service and professional, and use Velliqo AI or the Contact page with a screenshot of the issue.

Safety and data protection

Use accurate business data. Never place passwords, secret keys, full payment card details or unnecessary sensitive personal information in notes, forms or AI messages.
